

## *Pinot Blanc dry*

0,75 Liter

---

Like all Burgundy varieties, Pinot Blanc is very demanding. It loves deep, nutrient-rich, warm soils with enough moisture. Pinot Blanc is particularly well suited to calcareous soils. The grape variety is also known as Pinot Blanc (France) or Pinot Bianco (Italy). Because of its fine and fruity character, wine enthusiasts are learning to appreciate it more and more.

Food recommendation:

This wine is excellent with pork, fresh asparagus and young cheese.
